----------------	--------------------------	----------------

I was an intern for a sports production company for 2 years and have done sports reporting on location (stand ups) and in studio using a Teleprompter. In addition, as a student at the University of North Texas, I worked in the campus television studio several times a week and graduated with a degree in Radio, Television and Film. I have acting and modeling training with John Robert Powers Agency of Dallas, experience as a live dj for a top 40 station, and currently teach and direct dance and drama productions.
